N. EUGENE SMITH, EDGAR B. WORTHINGTON ELIZABETH P. LATHROP, WEBSTER D. COPP. For Councilman to Fill Vacancy. E. LARUE BLIVEN For City Tressurer,

STEPHEN H. REEVES. For City Sheriffs, CHARLES H. RAYNES, EARLE C. CHRISTMAN For Water Commissioner. CHARLES A. HAGBERG

THE BEPUBLICAN TICKET,

One week from today the voters to Norwich will have the opportunity to express their preference for those whom they desire to conduct the affairs of the best manner possible the commission recommends charter changes that are one week from today the voters of

administration of city business for the past two years. There has been plenty of evidence that the community was getting the structures of a live city government, one that was insistent upon a businessitiate conduct of city government, increased afficiency in the handling of city affairs and a willingness to meet and spive some of long standing. Norwich have been of long standing. Norwich has had in Mayor Lerou a chief execuhas had in Mayor Lerou a chief executive who has given close attention to
municipal requirements and he completes his term with the city in a much
hatter condition in many ways than
when he took held of the reins.

Which mean a hence to Norwich. In
the giving of more authority to the mayor It should aparate to improve the fresh slice. or it should operate to improve the city

Norwich has no desire to go backward. Its aim must be for a continua tion of the good work that has been an commissions to direct certain de-

been presented for the approval of the voters of the oily by the republicans in caucus a ticket made up of well known and capable citizens, as set forth above.

Touching with a bit of cotton saturated with spirits of camphor, or rubbing gently with alum or borax, will help to drive fever blisters away. It is a ticket made up of those who have the welfare of the city at heart, who stand for the best there is in city

run and jump on the reer end of a because it had been impossible to do it truck without any great danger pro- in any other way. It is something vided he kept away from the wheels of the vehicle on which he was riding. It was never a practice to encourage at any time but with the passage of time old time trucks are available to jump an, but there are of course the numersus substitutes with more speed and dog has his day and some seem to think the highway filled with fast moving vettey are entitled to the night also. hicles which are especially dangerous to those who are dodging about unmindful of their own safety.

The serious and perhaps fatal injury applicate to a boy of six in Braintree, Mass., in-dicates plainly the present day situation, With his brothers he had been riding on the rear of a truck. When leaving the season has opened it is safe for any truck he darted across the street to the who have heeltated to take down their sidewalk only to run directly in front storm doors. of his presence and it was impossible to present his being struck. Injuries received included a fractured skull and probable internal injuries. His recovery was considered unlikely.

With fire losses in the country for 1931 amounting to \$485,000,000 did your cligarette, match or carelessness help to give the total?

Highway dangers are much different than they were. It is necessary to use undertaking to cross streets having the decoration of the soldiers' teday, where little or no thought was graven in charge, given to it at one time, while the problem of admenting the children to a receguitien of the dangers grows bigger each year. When a child dashes from the rear of one vehicle into the path of another, with neither room nor time to escape, it can be appreciated that the driver is powerless to prevent an accident unless conditions are un-usually favorable, and the importance of impressing upon children the need of breaking the practice of jumping onto dealy running into the street in play, raunot be given too much emphasis. It wondering benefit of it. gept constantly to the front,

Those who are planning to go to La- our would feel differently about it if he rader need have no fear of a hot sum- were in Damasons instead of being at

TIRED, ACHING FEET

If you suffer from tender feet you should take a cold foot spray every morning and every evening. Get the tonic effect of the full pressure of the tonic effect of the full pressure of the cold water from the faucet upon the feet. Dry the feet thoroughly with a Turkish towel, paying special attention to the spaces between the toes. Rub the feet with alcohol and powder them with boric acid. Tender feet may be rubbed to advantage with witch hazel to which spirits of camphor has been added, one or two tablespoonfuls to four ounces of witch hazel. It is also beneficial to rub a little olive oil into the feet after the bath. Alcohol or vineger is sootbing to tired, aching, sore feet. Common baking soda also affords relief.

BUTTON FLOWERS

Button flowers are new and artis-tic trimmings for fancy work bags. Buttons of all siges, covered with silk, are best. Some seen on a band of patent leather that trimmed a straw matting bag were in various sizes from a 10-cent to a 50-cent piece and covered with different You probably have many flowers of which good use could be made by those crops de chine. A bead was used to having the decoration of the soldiers' fasten each button on with through the middle and this made the center of "flower." A few velvet leaves. With Lieyd George getting a vote of confidence on the Genea conference it is evident that he is still going as strong at home as ever.

The Thower, A few velves teaves, basted around the buttons, with silk embroidery floss; made the center of the Thower. A few velves teaves, which is still going as strong quet that could be copied effectively for a sports hat. Left over buttons from dresses are worth using this way.

DICTATES OF FASHION Red chiffon dresses are seen where

Sweet peas are the most popular orsage just now. Dragon flies, scarabs and beetles of many kinds are utilized for hat trims wondering whether he will get the full ming.

Separate crepe coats with lose, gaf-Plain brown chambrey is used to

The number of black hats with yellow flowers seem to be on the increase. The flowers are either placed at ach side or across the front.

Hats, dresses and trimmings show a strong Rusian influence. Brilliant embroidery in horizontal bands make use of the native colorings. Although capes are the much talk-ed of garment, very long, unbelted coats are seen on a large number of the smartly dressed women.

The effect of many uneven points is noted in caps-dress combinations where often the only trimming is centered in metal clasps on the colar of the caps and simply as arnamentation at the waistline of the frock. There is a decided vogue for white beads, worn in very long strings, loop-ed once or twice around the throat and then hanging well below the

Fluffy, frilly neckwear, vestees and guimpes are not so fashionable, but the rather tailored effects seem to be holding first place at the present

UTILITY FROCK

The sleeveless, slipover frock with cape to match is an ideal utility frock While now new, really having been shown for several seasons and in various fabrics, each season introduces sufficient variety in the range of ma-terial and trimining effects so that this type of costume does not register

They cause the wood to become soft, which makes it splinter easily.

One quart of rain water, two ounces aqua ammonia and two ounces of prepared chalk make an excellent silver polish. The ingredients should be mixed thoroughly before they are to be used.

as passe.

The newest type of utility or sports frock is made of a novelty checked flannel or other wool fabric, preferably a double-faced fabric being selected, so that the cape may be plain on one side and plaid or checked on the other, and usually so finished that it is reversible.

DAUGHTER'S CLOTHES

Simple, dainty clothes and plenty of them is the rule followed by the wise mother in the arrangement of her young daughter's wardrobe. Elaborate trimmings are in poor taste to begin with, and they are never satisfactory in the long run.

For sturdy warm weather frocks for children sateen is a material much

favored this season. Both plain and figured fabris are popular and some braceded effects are also offered. A frock of pink brocaded sateen recently seen, for a girl of 5 years was trim-med with narrow puffs of white or-gandy set into the skirt, finishing round neck and short sleeves, and a wide sash of the organdy was tied in a flaring bow at the back.

LAUNDRY HINTS

If you haven't an ironing board use a thick pad of newspapers on the or-linary table and cover them with an ironing sheet as you would a board. A little alum dissolved in the ringe water will restore the color in green or black prints which have faded. A little vinegar in the rinsing water will

If you would clean the taffeta frock soak it in water in which two table-spoons of sait have been dissolved. Then wash it in tuke warm water and good soap. Add half a teaspoon of bo-rax to the rinsing water to stiffen the silk. Life from the rinsing wa-ter and hang on the line without wringing. Press on the wrong side before quite dry.

A very little soap suds in the last rinsing water for flannels will prevent them from getting stiff and bunchy. If the clothes which must be washed are put into a tub of luke warm soap water the night before, the rub-bing on wash day will be considerably lessoned. Colored clothing and stock-ings should not be allowed to thus remain in water, however,

that is an improvement.

The same to see that they are obtained Belleving that the best is none too good in the way of a city government the republicans in caucus have named Charles H. Ricketts to head their ticket. Now and then information is received the republicans in caucus have named Charles H. Ricketts to head their ticket. Now rich has no better known citting and as in the administration just closing there is reason to believe that it eigeted he will provide a leadership that will be a lasting credit to the community, in holding the conduct of city affairs to business principles, and promptly and efficiently dealing.

The same to conduct of city and the qualifications and in the same selected for powder from eyelashes and is also said to encourage their growth. Some skins freckle more easily than others, and it is pleasing to think that the finest and most delicate compelex. Some skins freckles more easily than others, and it is pleasing to think that the finest and most delicate compelex loss account the finest and most delicate compelex and their records variable of the so-called draft deserter is reason to believe that the caucal of the publication of the so-called draft deserter is the same cleared and their records are the ones to suffer most. Rub a good vanishing cream into the skin before going out of doors and cover with a good vanishing cream into the skin before going out of doors and cover with a good vanishing cream into the skin before going out of doors and cover with a good vanishing cream into the skin before going out of doors and cover with the first a received on the part of the son the part of the publication of the required as such to a good vanishing cream into the skin before going out of doors and cover can make whole stock more at the first and strong and it is pleasing to think that the first and most delicate compelex and it is pleasing to think that the first and most delicate compelex and the bottom work work out an all the mover you can make whole stock more dail to the soun

lar from the front.

In connection with fall preparations, some middy houses say they are making them earlier this year than heretofore so as to be prepared with sufficient stocks of flannel, on which a scarcity was reported this last suturm.

It was at a fete at Pontarlier that

Cutten, who has been slected president of Colgate University, as made an enviable record as a colhis presidency the enrollment at Aca-dia has increased 65 per cent, its en-dowment has doubled, and its assets have increased three-fold. Dr. Cutten have increased three-fold. Dr. Cutten, is a native of Neva Scotia and a graduate of Vale, where he was prominent as a football player in his student days. Before entering the educational field he spent some years in the Baptist ministry, filling pastorates at several points in Connecticut, New York and Ohio. During the late war Dr. Cutten served as chief recruiting officer at Halifax, and later was head of the rehabilitation department of the Halifax Relief Comthe way that one woman department of the Halifax Relief Com

Great Men's Love Letters

MIBABEAU AND SOPHIE DE MON-NIER

There are few historical characters about whom so much is known as Mirabeau, and none of whom it is so impossiately. By some writers he has been described as a monster, and by others as fascinating. He must have had a remarkably strong personality to have wielded so much power, and he must have been endowed with considerable attrac-tiveness to have had so many love affairs.

It was at a fete at Pontarlier that If was at a fete at Fontarier that Mirabeau met Madame Sophie de Monnier, who was to play such an important part in the latter years of his life. Before the ball was over not only had Sophie plunged headlong into the abyas whose depths she sought to plumb, but even her husband had yielded to Mirabanier "agrible site of amiliarity" Mirables site of amiliarity." as a member of the Board of Edu-cation in Pulaski County, Ark., gives that State the first woman office beau's "terribe gift of amiliarity." Mira-beau's "terribe gift of familiarity." Mira-

More than a million women voted at the recent elections held in Canada.

Under a decision recently handed down by the Massachusetts Supreme Court, women in that State are eligible to held any elective reappointive office.

Sophie was very unnappy in her man was a treated and confined in Vincennes and Sophie in the penitentiary at Bensacon. During their confinement several hundred letters were exchanged through the confinement of the man who Miss Elizabeth M. Lauless, recently selected to act as secretary of the county jury in San Prancisco, is the first woman in California to act in that capacity.
